Your ASP.NET application

Congratulations! You've created a project

This application consists of:

CUSTOMIZE APP

- Get started with ASP.NET MVC
- Change the site's theme
- Add more libraries using NuGet
- Configure authentication
- Customize information about the website users
- Get information from social providers

DEPLOY

- Ensure your app is ready for production
- Microsoft Azure
- Hosting providers

GET HELP

- Get help
- Get more templates

Sample pages showing basic nav between Home, About, and Contact

Theming using Bootstrap

Authentication, if selected,
